# CHARLES F. MURPHY IS NOW

Brilliant Democratic Victory in Greater New York at Last Tuesday's Election Has Won for Him the Unquestioning Allegiance of All Factions in the Organization-Final Test of His Independence of Croker Will Come When the Subcommittees of Wigwam Are Appointed.

REPUBLIC SPECIAL. New York, Nov. &-Out of the Gas House district, a hotbed of strenuous politics, has come a new master of Tammany. He came forth as silent as a shadow, little known, suspected and ridiculed. In suence he worked and waited. He was tried, he wonhe mastered, and in victory he remains ilent. The closest friends of Charles F. Murphy cannot draw from his lips more than a few commonplace expressions of pleasure or satisfaction at the result of the

Of his political enemies, those inside the organization, he says kind words or nothing. Of David B. Hill his silence is eloquent. He may think much of political conditions and results up the State, but the work he has mapped out for himself is in Tammany Hall.

Men who doubted and suspected Murphy of power and influence in the organisation, to-day take off their hats when he enters the wigwam, and publicly and privately they Men of millions, who laughed heartily

when Devery dubbed him "Sport," have since Tuesday night gone to the Fourteenth street wigwam in their carriages and entered his office as unostentatiously as the numblest worker would, and have been received with the same quiet courtesy. Murphy has been urged again and again since the election to speak out and tell what he thought of the result and the effect of the methods of David B. Hill. To all such requests he would shake his head.

When personal friends urged him to make a statement, he answered: "No; it would seem like boasting and criticism. I never boast, and I do not wish

INDEPENDENT OF CROKER. To-day one of the oldest and most pow-erful of the district leaders of Tammany, a man known as a Spartan of the Croker old guard, stood on the steps of the Fourteenth

street wigwam, and said: "Charlie Murphy is the leader of Tammany. He has won his fight, and no man living, not even Croker himself, can take the leadership from him. Take my word for it. Croker will never make the attempt. If he does, he will fail. Murphy has made a record, and to-day he has behind him twenty-eight district leaders who will be with him to the end in any fight."

the election of Murphy as Croker's successor, said:
"He won a great victory and he is entitle to the credit and prestige of it. The result of the election has certainly strengthened

Another district leader, one who opposed

many that we did not carry the State." During the past forty-eight hours it has been demonstrated again and again that Murphy is recognized as the actual leader of Tammany, and that men who doubted or suspected him now humbly seek a chance to assure him of their loyal support.

Buccess succeeds in Tammany like a flash. Murphy was successful in getting

king plurality for the

CHARLES F. MURPHY, Tammany boss

State ticket, and, in the sporting parlance of the wigwam, he is no longer a "sport," he is the "whole game." He has already set to work to win a Tammany victory i the city election next year.

MURPHY'S POLITICAL TRAINING. Murphy learned politics in the school of John Kelly and Richard Croker. In the strenuous days of that school the man who sought favor or advancement in Tamman had to answer three questions: "What election district do you control? How many votes can you poll? What work can you do for the organization?"

There were no questions then of social position or wealth. "Can he deliver votes?" That was all they wanted to know in Four teenth street when a man asked a favor of be essential to control of Tammany. After

In his youth, Murphy played baseball and leveloped the physical power that seems to that he owned saloons, which he has never denied, and in time became a district lead-er. As a district leader he maintained an tion district captains and made them work under a new rule. He would not in campaigns permit his captains to spend their evenings in the district clubhouse. Begin-ning a week before the first day of regis-

less it was necessary to report at the club-

During the campaign that ended last Tueslay there was much comment at Tammany Hall over the fact that few district leaders were seen there. In other campaigns there seemed to be a general understanding that every district leader must show himself at wigwam for a short time every day. This year few district leaders were seen here, while the campaign was in progress. This change, it develops, was by order of Murphy. He told the leaders to stay in

their districts and get out the vote. The result proved the wisdom of his advice. TEST OF LEADERSHIP. The new Tammany Executive and General ommittees are to meet and organize on Tuesday, December 20. The routine of organization is simple and means little or nothing indicative of individual control. It is in the make-up of subcommittees that

the hand of the leader is disclosed. The present subcommittees, those appointed last December, represent the will and the orders of Richard Croker. The next subcommittees, in the opinion of most Tammany men, will in all things obey the orders of Charles F. Murphy. If he controls the subcommittees, none in the organization will be so hold as to question his leader-

The fight against naming Murphy as leader of Tammany last summer was planned and led by district leaders who said that he was only an agent for Croker. These men said they had taken Croker at his word when he announced that he was out of pol-ities for good. They said that Croker must not attempt to direct the affairs of the organization from England through a local

During the past forty-eight hours these leaders have said that Murphy was entitled to much credit for the heavy Democratic vote in the city and that they would loyally support him as soon as it was fully demon strated that he was independent and not an agent of Croker, who lives in England. They admit that he may be able to demonstrate this before the end of the year. The friends of Murphy insist that he does not represent Croker, and would fight the leader for leadership, if necessary. There is now one overshadowing feeling or purpose

AN UNPLEASANT EXPERIENCE

AN UNPLEASANT EXPERIENCE

Has it ever been your unhappy lot to be told by your physician that you most go to a hospital and submit to an operation? If so, you remember with what drand and shrinking you awaited the day when you must endure the knife. The present day surgeon appears to be possessed by a manta for operating, especially in cases of hemorrhoids or plies, and while the greater number of the profession do not recommend this 'last resort' unless they honestly believe it necessary, the fact remnins that much needless operating is done, and the patient put to much expense and suffering for what? To obtain a possible temporary relief; these words are used advisedly, because in nine cases out of ten the affliction returns and the patient is just where he started from Oftentiaes he could be cured much more simply and easily by the use of such a remedy as the Pyramid Pile Cure; this has come to be recognized as the best remedy on the market for the painful disease named, and the druggists now sell more of it than all other pile remedies combined. The writer personally knows people who were afflicted with the worst form of bleeding and protruding piles and who were permanently cured by the use of Pyramid Pile Cure. In every one of these cases the attending physician had assured the sufferer that only by an operation could he rid himself of the disease; so much for the infallibility of the doctors. This remedy, which is sold by all druggists at the low price of 50 cents, is in suppository form, is applied directly to the parts affected, and performs its work quietly and painlessly. The Pyramid Drug Company, Marshall, Mich., will mail free to any address a hook telling all about piles or hemorrholds, their cause and cure.

A suggestion is offered that if the reader is afflicted, or knows anyone who is, this book be sent for, as it will be found invaluable.
